## SUMMARY

Full Stack Developer with experience in building responsive, scalable web applications across both frontend and backend. Skilled in modern technologies such as React, JavaScript, TypeScript, Node.js, Express, REST APIs, HTML, CSS, and database integration. Focused on writing clean, maintainable code, improving user experience, and delivering efficient solutions from concept to deployment. Comfortable working in fast-paced environments, collaborating with teams, and adapting quickly to new tools and technologies.

## EXPERIENCE

Senior Web Developer

### The Huslter Collective

📅 05/2023 - 02/2026 📍 New Delhi, India

- Led the integration of a responsive web layout using modern JavaScript libraries, HubSpot CMS, which enhanced user engagement by 30%, improving overall customer satisfaction metrics significantly.
- Collaborated with UX/UI designers to revamp the **MediaTek website** visual aesthetics, leading to a 25% reduction in bounce rates and an improved user retention rate.
- Implemented performance optimization techniques that decreased load times by 50%, allowing users to access product pages with simple UI>UX.
- Contributed to the development of a new feature set utilizing JavaScript, HubL and HubDB, producing an increase in page-time metrics, improving conversion rates by 15% across the platform.
- Conducted regular code reviews and collaborative brainstorming sessions, fostering a culture of continuous improvement, which led to a team-wide reduction in coding errors by 40%.
- Participated in cross-functional teams that executed multiple enhancements, resulting in an aggressive deployment schedule, increasing our ability to deliver quality features ahead of deadlines.

Front End Developer JavaScript HTML CSS

### The Web Plant

📅 11/2018 - 02/2023 📍 New Delhi, India

- Supported senior developers in constructing web applications using HubSpot CMS, Design Manger that aligned with user requirements, leading to the successful launch of three high-traffic features.
- Monitored the implementation of best coding practices and standards, achieving a 15% reduction in post-launch bugs compared to previous project cycles.
- Assisted in the transition from traditional to responsive web design, which improved accessibility and engaged a broader user demographic across various devices.
- Documented lessons learned from each project, creating a repository of knowledge that improved efficiency for current and future development teams.

## EDUCATION

Bachelor of Political Science

### University of Delhi

📅 2016 - 2019 📍 New Delhi, India

Diploma in Website Development

### Dice Academy Delhi

📅 2017 - 2018 📍 New Delhi, India

## PROJECTS

MediaTek

Built MediaTek's global website [mediatek.com](#) on HubSpot CMS with custom themes, modules, and templates. Enabled multi-language support, HubDB content, and automated lead workflows, empowering marketers with a flexible CMS for efficient content management.

NGO Management Platform — Full Stack Development (Ongoing)

Developing a full stack web platform for an NGO using Next.js, React, Node.js, Tailwind CSS, and MongoDB. Building responsive frontend interfaces, backend APIs, and database integrations to manage organizational data, workflows, and scalable application functionality. Check out the github: <https://github.com/sarthak5461/ngo-app>

## KEY ACHIEVEMENTS

### Improved Site Engagement

Revamped site and landing pages aesthetics and functionality resulting in a 40% increase in user engagement metrics across the board.

### Enhanced Code Efficiency

Enabled a culture of continuous improvement that decreased development errors by 30% through exhaustive team collaboration and code reviews.

### Successful Project Completion

Successfully led the launch of critical features ahead of tight deadlines, achieving a more efficient project turnaround rate of 15%.

## TECHNICAL SKILLS

HTML, CSS, JavaScript, React, Next.js, Node.js, Tailwind CSS, MongoDB, Git, Web performance optimization, HubSpot CMS, AI Tools (Claude, Codex) their all models.

## TRAINING & COURSES

### Advanced JavaScript Concepts

Advanced JavaScript Concepts by Udemy focuses on understanding complex JavaScript patterns and functionalities.

### HubSpot CMS for Developers II: Best Practices

Strong understanding of HubSpot CMS best practices, including web accessibility, performance optimization, SEO, and scalable theme development.
